Subject: Technical Talent List

Rick,
We're trying to finalize the "Lead Expert" and "Technical Talent" lists prior to the next staff meeting. I've made the modifications to the lead expert list you'd suggested, but I was unclear on one aspect of your comments on the Technical Talent list.

According to your notes, you wanted staff to identify within each area/discipline the individuals who would be responsible for maintaining proficiency, currency and knowledge relative to tobacco (including monitoring the literature). How many persons within each area did you want identified? Was it 2?

Please advise.

Thanks,
Valerie
